## ODDS AND ENDS

**FAVE SOUVENIR** One of the great things about travel is remembering all the fun things you saw, heard and did. This terrific journal lets kids plan a trip, take notes on the way, play games and learn about capitals, explorers, adventurers, foreign currencies and more. With bright illustrations inspired by the book, *My Granny Went to Market – A Round-the-World Counting Rhyme*, this could be the most cherished memento from your next holiday.

## GLOBE-A-RAMA

Jennifer Talbot has a growing reputation for creating cool installations for kids' rooms. Here, she's custom-designed a 3D felt globe with Velcro-ed moveable animals, landmarks and cultural symbols. It includes a tree from the Redwood Forest, China's rice fields as well as a raft of symbols referencing favourite sports teams and places the clients one day hope to visit with their children.

Talbot says she can make interactive maps or globes to order. "Places where dinosaurs lived, landmarks of a home state – whatever. The possibilities are endless!"
